“This program will help close the pharmacy leadership gap identified by national pharmacist organizations.”

“Pharmacists will be able to distinguish themselves with the ambition, abilities and skills needed to advance.”

“This program will be helpful in filling our immediate leadership development needs at the Cincinnati Children’s Hospital Medical Center.”

“When pharmacists enhance their skill sets with leadership training, patients and society as a whole benefit.”

The University of Cincinnati James L. Winkle College of Pharmacy is the fourth oldest pharmacy school in the nation. Building on a tradition of excellence and innovation, the college’s leadership programs are among the first in the country to be offered online. With our emphasis on student-centered learning and strong practice engagement, the college provides unparalleled opportunities for practical experience.
